ARTICULTURE

The long love affair between art and nature — and the artistic expression found in great garden and floral design — will be captured in an extraordinary presentation of the internationally renowned PHS Philadelphia Flower Show in 2014. In the 10-acre exhibition space of the Pennsylvania Convention Center on March 1-9, 2014, "ARTiculture" will explore how exquisite landscapes, gardens and floral arrangements have inspired artists from the Old Masters to the Impressionists to the most creative forces working today. And the world's leading landscape and floral designers will show that horticultural design is itself a form of art.
