

Attention

Health & Safety

Parents please bring it to our attention if your child has been sick with any type of virus (ie) Coxsackie virus.... Please notify of any lice as well to better ensure the health and safety of our other campers and staff members.

As all of you may already know, we are all being more aware of *FLU* symptoms. For the safety and health of all campers and staff, we ask for you to please keep your child/children home from camp if they are experiencing any signs of the following: fever, nausea, prolonged headache, diarrhea, vomiting, and any flu like symptoms... We thank you for your help and co-operation in keeping us all healthy and safe! Please let us know of anything that is contagious, so that we can alert other parents and staff. Be healthy be happy!

Peanut Free Camp

Attention:

It is important that you do not send your child to camp with any food or product that contains nuts. Some campers that attend our camp have a severe allergic reaction to peanuts and other nuts. Let's help keep our children safe! Any parents with a peanut allergy child please provide us with written permission to administer an epipen in the event of an emergency allergy episode.
